WHO WE ARE

Coding Solar & Renewable Energy Co. LTD is a clean energy infrastructure company incorporated under the laws of the Federal Republic of Nigeria as a subsidiary of Coding Group PLC. The company specializes in the Engineering, Procurement, Installation, and Maintenance of Solar Power Systems for residential, commercial, industrial, and governmental applications. We are committed to delivering cost-effective, reliable, and environmentally sustainable solar energy solutions designed to reduce dependence on fossil fuels and improve energy accessibility across urban and rural communities. Our technical team deploys industry-standard renewable energy technologies to provide stable and uninterrupted electricity supply tailored to client-specific load requirements.

OUR MISSION

To design and deploy efficient solar energy systems using advanced engineering practices and smart technologies that provide reliable, affordable, and environmentally friendly electricity solutions for homes, businesses, and institutions.

OUR VISION

To become a leading renewable energy infrastructure provider in Africa, delivering innovative solar power solutions that drive sustainable development and energy independence.

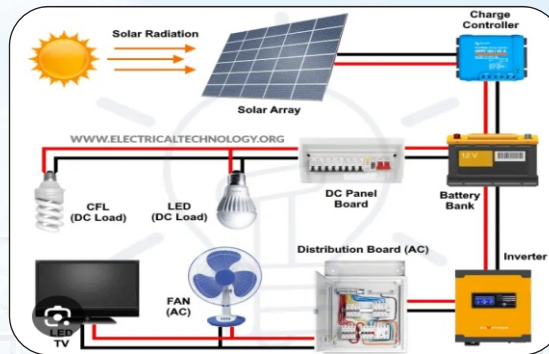

OUR CORE VALUES

OUR SERVICES

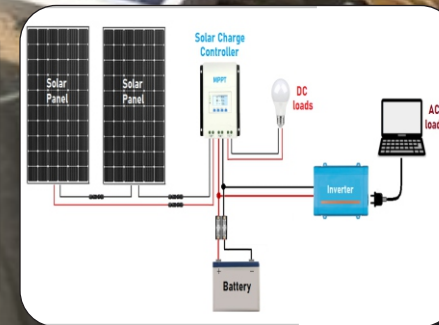

OUR SERVICES ARE:

- Solar Energy System Design
- Solar Installation Services
- Equipment Procurement & Supply
- Operations & Maintenance (O&M)
- Renewable Energy Consultancy

TECHNOLOGIES & SYSTEMS DEPI

- Monocrystalline Solar Panels
- Hybrid Inverter Systems
- Lithium Battery Storage Systems
- MPPT Charge Controllers
- Solar Tracking Systems
- Smart Remote Monitoring

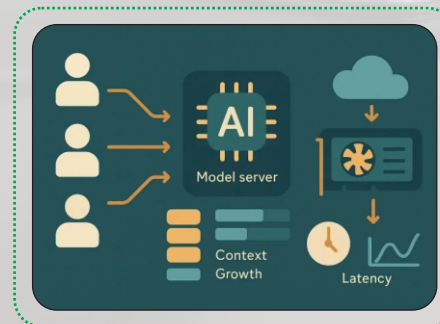

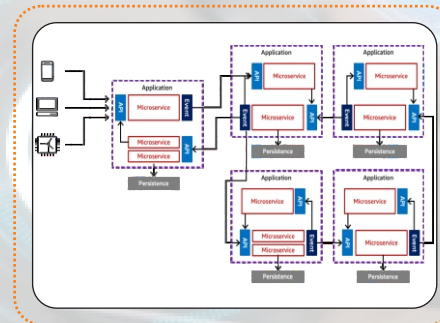

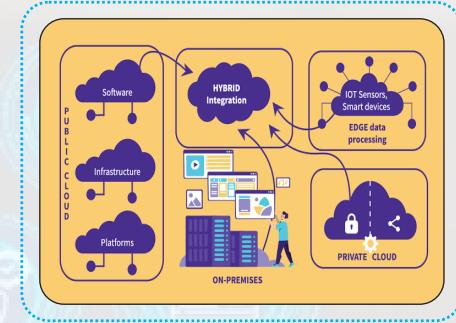

TARGET MARKET

- Residential Homes
- Small & Medium Enterprises (SMEs)
- Manufacturing Industries
- Hospitals & Health Facilities
- Educational Institutions
- Government Agencies

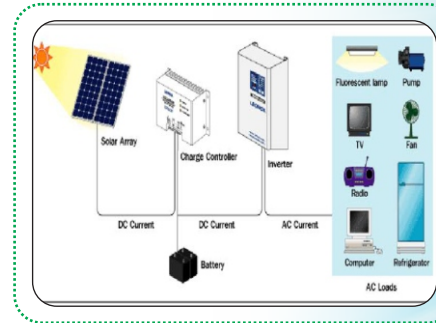

COMPETITIVE ADVANTAGE

- AI-Based Load Estimation Tools
- Custom Battery Backup Design
- Scalable Modular System Architecture
- Hybrid System Integration Expertise
- Real-Time Performance Monitoring
- Professional Installation Standards

PROJECT DELIVERY METHODOLOGY

- Site Inspection
- Load Assessment
- System Design
- Equipment Procurement
- Installation
- Testing & Commissioning
- Client Training
- Post-Installation Support

HSE POLICY

Coding Solar & Renewable Energy Co. LTD adheres strictly to electrical safety standards and environmental protection regulations by ensuring: Installation Risk Assessment, Proper Cable Management, Fire & Surge Protection, Environmental Impact Reduction, and Personnel Safety Compliance.

ORGANIZATIONAL STRUCTURE

MUHAMMAD NAZIR IBRAHIM

Chairman Coding Group PLC.

Muhammad Nazir Ibrahim is the Founder and Chairman of Coding Group PLC, a diversified enterprise with operational interests spanning renewable energy, construction, software development, logistics, and infrastructure consultancy. As the Group's principal executive leader, he provides strategic oversight for all subsidiary companies and is responsible for setting the long-term vision, corporate governance framework, and investment direction of the organization.

He has played a pivotal role in the establishment and growth of the Group's business units, including Coding Solar & Renewable Energy Co. LTD, Coding Construction Co. LTD, and Coding Technology Co. LTD. His leadership is centered on leveraging technology-driven solutions to address infrastructural and energy challenges within emerging markets.

In his capacity as Chairman, Muhammad oversees corporate policy formulation, expansion strategy, partnership development, and enterprise risk management across the Group's portfolio. He also leads initiatives aimed at promoting sustainable development through renewable energy deployment, digital transformation, and construction of modern infrastructure systems.

His areas of expertise include renewable energy solutions, enterprise systems development, infrastructure planning, project management, and strategic business development. Through his leadership, the Group continues to pursue its mission of delivering scalable and sustainable solutions that support economic growth, job creation, and improved access to energy and technology services.

Muhammad Nazir Ibrahim holds academic affiliation with the Federal University Dutse and is committed to fostering innovation-driven enterprises that contribute to national development.

ABUBAKAR MAHMOUD SARKI

Chief Executive Officer Coding Solar & Renewable Energy Co. Ltd.

Abubakar Mahmoud Sarki is the Chief Executive Officer of Coding Solar & Renewable Energy Co. LTD. where he leads the company's renewable energy operations and oversees the execution of solar engineering projects across residential, commercial, industrial, and institutional sectors.

As CEO, he is responsible for directing the Engineering, Procurement, and Construction (EPC) services of the company, ensuring the efficient design, deployment, and maintenance of solar photovoltaic systems tailored to meet client-specific energy requirements. His role includes supervising load analysis, system capacity planning, equipment selection, installation processes, and system testing and commissioning.

He provides leadership for the company's technical workforce and coordinates operational and maintenance activities to ensure optimal performance of deployed solar energy systems. He also ensures that all installations comply with industry safety standards and renewable energy guidelines.

Abubakar Mahmoud Sarki possesses technical competence in solar PV system design, hybrid inverter configuration, battery storage optimization, and renewable energy project management. Through his leadership, Coding Solar & Renewable Energy Co. LTD continues to deliver reliable and scalable solar infrastructure solutions that improve energy access and support sustainable development initiatives.

He remains committed to advancing the adoption of clean energy technologies through the implementation of innovative solar power systems that reduce dependence on conventional energy sources and promote environmental sustainability.

WORK WITH US

Our energy solutions are reinforced with industry best practices with the best market rates while utilizing cutting-edge technology. We improve the operational efficiency of our clientele as well as their return on investment.

We constantly pursue our topmost priority which is the creation of stable energy flow and this informs our promise to strive to consistently provide top-notch and unbeatable yet cost-effective services to our clients.
